

Register and sign in

Start with Cosmos Community, then access the workshop.

STEP 1 / BEFORE YOU CONTINUE

Register at Cosmos Community

You must visit the community page below and register for an account.

<https://community.vastdata.com/t/about-the-workshop-category/1969>

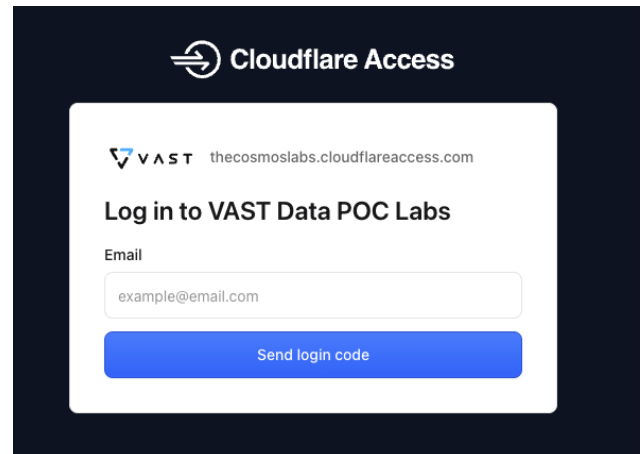

Once registered, you will see a link on the community page to proceed to the Builders Challenge Workshop.

2 Verify your email

If the Cloudflare Access screen appears, enter your registered email address and click **Send login code**.

Find the six-digit code in the email from Cloudflare. Enter it on the next screen and click **Verify**.

Code missing? Check spam or use **Resend**. The code expires after 10 minutes.

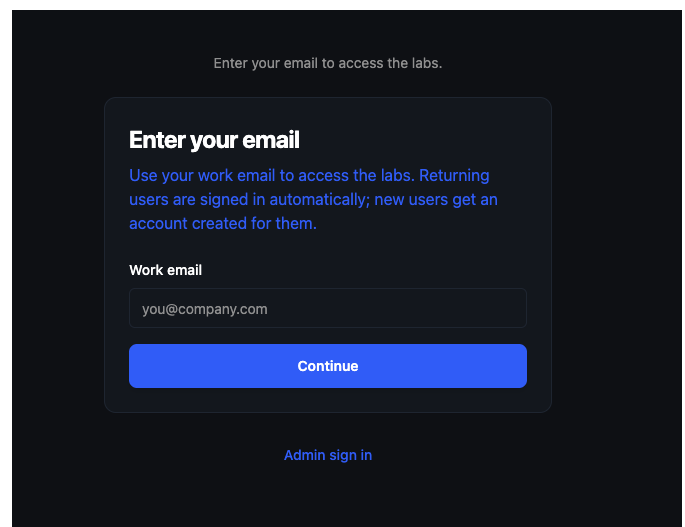

Already at the workshop login? Skip step 2. Cloudflare verification may be skipped if your IP address is already approved.

3 Sign in to the workshop

On the workshop login screen, enter the **same email address you registered with**, then click **Continue**.

This is a separate login screen, so entering your email again is expected.

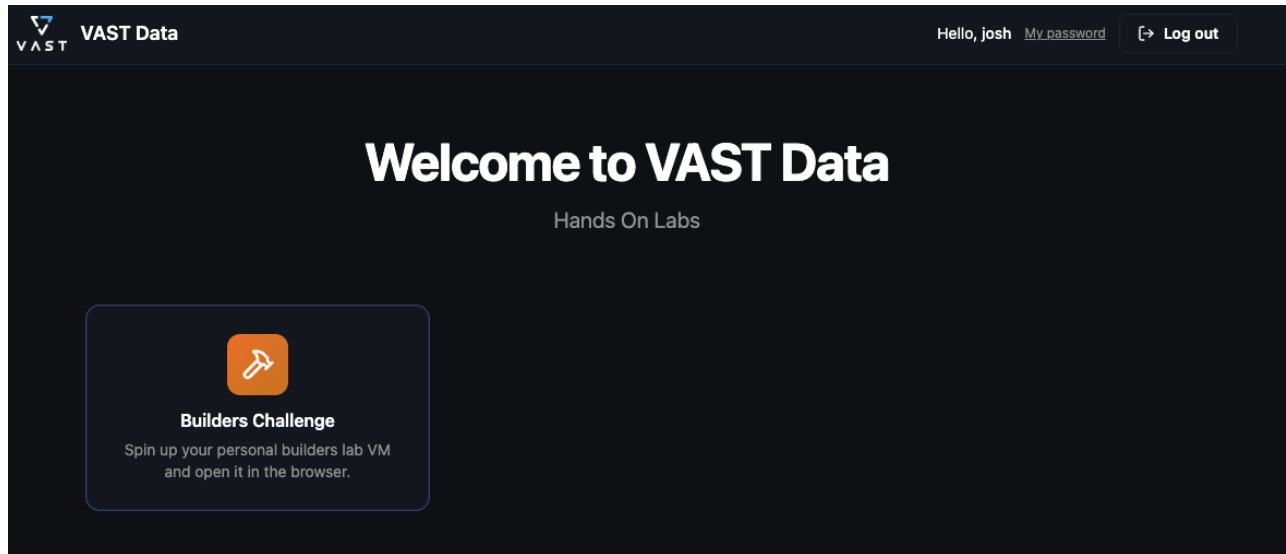

Open the Builders Challenge lab

Choose the lab and enter the workshop passcode.

4 Choose Builders Challenge

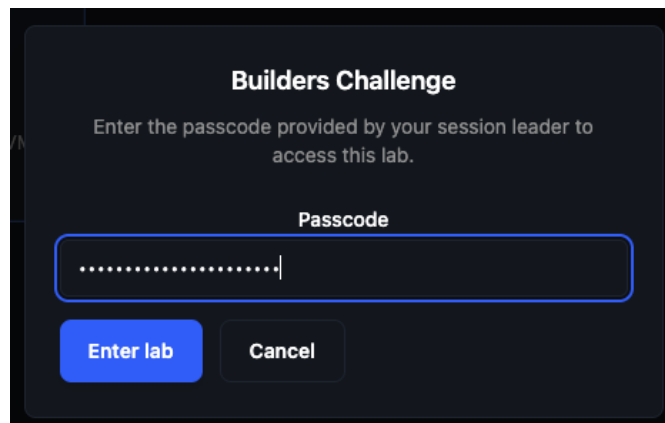

On the workshop home screen, click the **Builders Challenge** tile.

5 Enter the lab passcode

Enter the passcode exactly as shown, then click **Enter lab**.

Lab passcode: **Passcode on Screen**

Join your assigned team

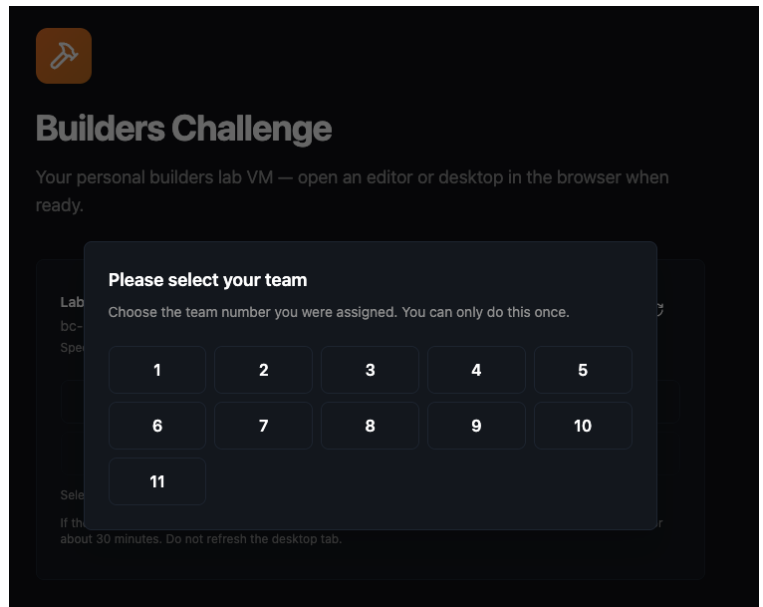

Double-check your team number before you confirm.

Choose carefully: The team-selection screen says you can only choose once. If you do not know your team number, ask the coordinator before continuing.

6 Select your team

Have your assigned team number ready. Click the number given to you by your workshop coordinator.

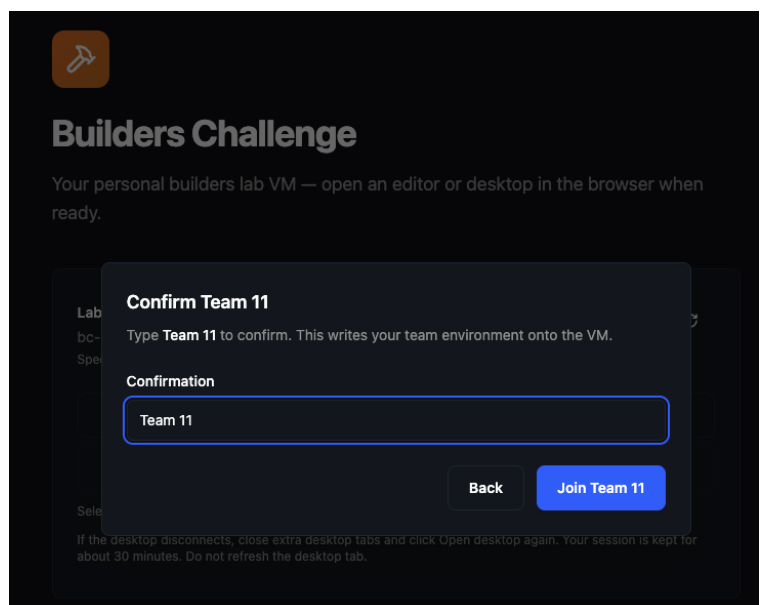

If you have already joined a team, this prompt may not appear. Continue to step 8.

7 Confirm your team

Type the confirmation text exactly as requested on screen, then click **Join Team [number]**.

Example: For Team 11, type **Team 11** and click **Join Team 11**. Use your own assigned team number.

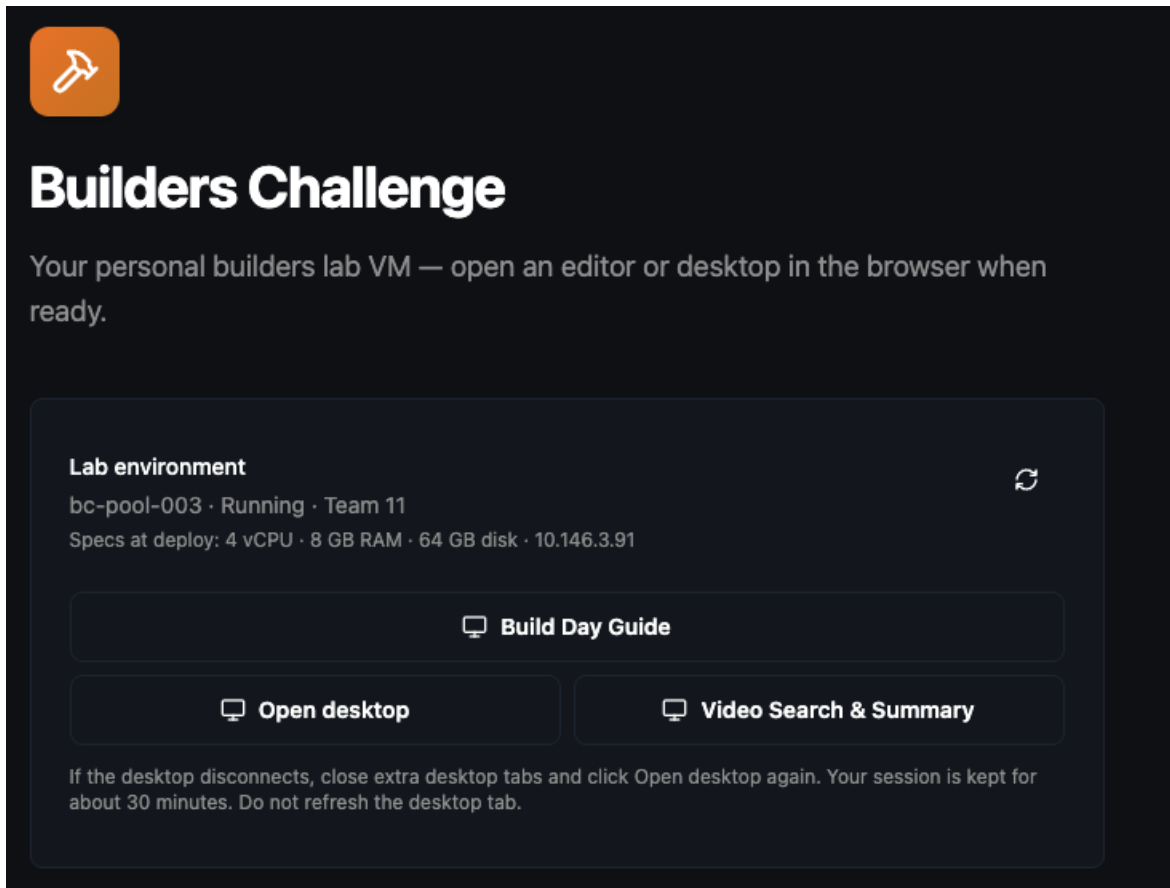

The screenshots show Team 11 as an example.

Start building

Wait for your lab environment to finish setting up.

8 Open your workshop tools

Once setup finishes, the lab page shows the options below.

Build Day Guide

Open the instructions for the build day.

Open desktop

Launch your virtual desktop, sign in to Cursor, and start coding.

Video Search & Summary

Open your team's tool. Your coordinator will explain how to use it.

Desktop disconnected? Close extra desktop tabs, then click **Open desktop** again. Do not refresh the desktop tab. The screen notes that your session is kept for about 30 minutes.
